

## AUSTRIA MAY RESTORE KING

## Here and There

Editorial By ALEX. H. WASHBURN

A TRAVELER comes home to Arkansas in September, 1934, with renewed confidence that this is the best of all places to be at this particular stage of our country's history.

## Tax Delinquency

Three Times as Great as in '28

Percentage Rose From 5 in 1928 to 16.1 in 1933, Survey Shows

21 PER CENT LAND 80,969 of 386,932 Hempstead Acres Found to Be Delinquent

Delinquent state and local taxes in Hempstead county, at the time the tax books were closed in June, 1933, totaled \$35,947, which was 16.1 per cent of all taxes due as compared with the delinquency of 5 per cent in 1928.

In 1933 there were in the county 386,932 acres of land subject to taxation, of which 80,969 acres were delinquent or 21 per cent of all land. In addition 76,697 acres had already been forfeited to the state and remained unredempted as of January 1, 1934.

In the state as a whole, about 32 millions of acres of land are commonly subject to taxation. In 1933 about 4.8 million acres were delinquent and an additional 5.4 million acres have already been sold to the state for taxes. The rate of delinquency on rural lands in 1933 for the state, as measured in acres, was 18 per cent, as compared with 21 per cent for Hempstead county. This information on tax delinquency is the result of a study made by the Department of Rural Economics and Sociology of the University of Arkansas College of Agriculture and released by Frank R. Stanley, county agent of Hempstead county.

The percentage redemption for taxes delinquent in 1933, despite Act 2, was less than in former years, the research workers point out. In the entire state in 1933 only 36 per cent of all delinquent land was redeemed or sold, as compared with 70 per cent in 1928. In Hempstead the rate of redemption was 40 per cent in 1933 as compared with 95 per cent in 1928.

## Sea Law Broken Aboard Lost Ship

NEW YORK. — (AP) — Federal Judge Alfred C. Cox Saturday denied the request of U. S. Attorney Martin Conboy to compel attorneys for the Ward Line to produce statements they had obtained from the officers and crew of the burned Morro Castle.

Testimony on the illegal, combustible liquid cargo from William O'Sullivan, Morro Castle store keeper.

"Was there liquid cleaning polish used on that ship?" he was asked.

"There was."

"Was it highly inflammable?"

"Very."

"Was it known to those in authority?"

"It was used around the bridge."

The inquiry heard also a New York city fireman, a passenger on the fire-ravaged vessel, declare he was positive of smelling smoke as early as 12:45 a. m., although officers' reports had fixed the start of the blaze two hours later.

Other witnesses said fire drills on the vessel had been conducted haphazardly and that even crew members failed to respond to calls.

A move by Ward Line lawyers to vacate subpoenas, ordering them to produce statements and affidavits of surviving passengers for the federal grand jury investigation, was undecided. A federal court judge indicated his decision would be rendered Saturday.

District Attorney Conboy opposed the motion to vacate his subpoenas, contending that a criminal investigation was entitled to receive all pertinent information, except that constitutionally privileged.

Two of the four bodies washed up New Jersey beaches during the day were identified as those of Morro Castle victims and it was believed the

## Bandits Hold Up Fayetteville Bank Imprisoning Staff

Escape With Unnamed Loot After Capturing Cashier and Seven

FIRST CITY HOLDUP University City Scene of Robbery of State's Oldest Bank

FAYETTEVILLE, Ark. — (AP) — Entering the building sometime during the night, three masked bandits seized E. P. Pyatt, cashier of the McIlroy Bank & Trust Co., and seven employees as they arrived at the bank at opening time Saturday and held them captive while the institution was looted.

The holdup of the bank, the oldest financial institution in Arkansas, was the first ever staged here.

Officials said the robbers took everything in sight, and no estimate of the loss could be made pending a check.

The robbers escaped in an automobile, with a posse in pursuit.

Cashier Pyatt later estimated the loot at \$5,671.

## Brinker Defense Charges "Abuse"

State Attempts to Refute Story Police Were Cruel to Prisoner

TEXARKANA. — Efforts of Clyde Sweeten, defense attorney for Edwin Brinker to force admissions from Albert Chitote, former Texarkana police officer, that Brinker on trial for his life for the murder of P. A. McSwain had been "abominably abused and mistreated" on the night of November 18 and morning of November 19, 1933, when as Sweeten characterized it, "that so called confession" was obtained, failed but proved to be the feature of the Friday afternoon session of the trial.

Chitote, who is now representing a broad company here, was a member of the police department at that time and assisted in the investigation that led to the murder charges being filed against young Brinker.

Under questioning of District Attorney Ethel L. Lincoln, Chitote testified that he did not see any witness toward the defendant while he was present at night Brinker was questioned. I was in and out during the day and during the night at intervals but at no time saw anything like violence toward Mr. Brinker."

The defense objected to Lincoln asking anything about a statement which Chitote stated the defendant had been permitted to make and that was dictated to Mrs. Mary Boles, stenographer in the county office at the time of Brinker's arrival in Texarkana for questioning. The objection was sustained.

## Russia Given Bid to Join the League

Nations Telegraph Invitation to Moscow Saturday

GENEVA, Switzerland. — (AP) — The League of Nations Saturday telegraphed Moscow its invitation to Russia to become a member of the international body.

The first settlers in the strange colony on the island of Suba, Dutch East Indies, were murdered there by the pirate, Henry Morgan, in 1655.

## FLAPPER FANNY SAYS

REG. U. S. PAT. OFF.

Boys will be boys—only until they find a sweetheart.

## Yellow River Ends Rampage in China as Flood Sweeps Valley

KAIFENG, China. — (AP) — The Yellow river seemed to be returning to its banks Saturday after a flood that brought death to the river valley. The water was apparently subsiding as rapidly as it rose. There was wide-spread destruction but the proportions of the damage and the number of dead could not be estimated because of the lack of agencies to investigate.

## 72 Millions for Cotton in October

U. S. to Distribute Parity and Rental Payments Together

WASHINGTON. — (AP) — The Farm Administration announced Saturday that the third cotton parity payment, due in December, would be combined with the second rental payment, and both would be distributed in October.

The total to be paid out is approximately 72 million 500 thousand dollars.

## Baker Appointed to Supreme Court

Governor Futrell Names Him to Post for Which He Was Elected

BULLETIN

LITTLE ROCK. — (AP) — Basil Baker, Jonesboro, Democratic nominee for the Arkansas Supreme Court term starting January 1, Saturday took the oath as justice by virtue of his appointment to fill the unexpired term of the late Justice William F. Kirby, Little Rock.

LITTLE ROCK. — Governor Futrell Friday sent to Basil Baker his appointment as associate justice of the Arkansas Supreme court to fill the unexpired term of the late Justice William F. Kirby.

Mr. Baker was an opponent of Justice Kirby in the Democratic primary August 14, and the justice died suddenly before the election, leaving Mr. Baker without opposition to become the nominee. Justice Kirby's term would have expired December 31.

Mr. Baker probably will receive the oath of office Monday when the Supreme Court will re-convene after the summer vacation. Several cases will be submitted to the court Monday, but no decisions will be handed down until the following week.

## Widespread Theft of Ballots Shown

Election Contests Believed Responsible for Illegal Action

LITTLE ROCK. — Whether pending elections contests have anything to do with it, the fact remains that the theft or destruction of ballots in the last primary or run-off election in Arkansas is becoming general.

In most instances the ballots had been entrusted to the county clerk, and he had placed them in a vault, presumably safe from persons who may have designs upon them. But in at least four instances, vaults proved to be anything but a safe place.

Since there was no vault in the courthouse in Van Buren county, the clerk had placed the ballots entrusted to him in the vault of a bank which was being liquidated. Four or five persons knew the combination. A few days before an election contest was to be held, it was discovered that the vault had been opened and hit the ballots had vanished.

A few days later an unidentified man stole into the Cleburne county courthouse at Heber Springs, held up the nightwatchman at the point of a pistol, opened the vault door and got away with several boxes containing ballots. They are still missing and officers say they have found no clues.

In Woodruff county, a different method was used to destroy the ballots, but apparently not successful. A vault had been opened and hit the ballots had vanished.

In Sebastian county several days ago petitions for the county salary act were stolen from a strongbox in the office of one of the county officials. It was just a day or two before the time to file the petitions would expire. These sponsoring the proposal and in a short time had sufficient signatures. So the theft there will have little, if any, effect.

## Arson Cases Are Continued Until Nov. 7 at Warren

Trial of Four Local Men Postponed for Arraignment of Fifth

WILSON FIFTH MAN Minden (La.) Citizen Charged With Hiring of Alleged Arson Job

Arson charges against four Hope men, held under bond for the alleged burning of a cotton gin at Banks, Ark., the night of April 10, were continued Friday in Bradley county circuit court at Warren until November 7.

The four defendants are: Charles Cronoe, Jesse Hutson, Tommy Crawford, and Chris Wheaton, the latter a negro.

The trial was postponed on motion of Prosecuting Attorney Geo. Holmes in order that charges against a fifth man, Ben P. Wilson, might be heard at the same time.

Wilson, who gave his home as Minden, La., was brought into the probe several weeks ago. He was indicted by the Bradley county grand jury 10 days ago, his trial date being set for November 7.

Wilson, the state alleges, hired Cronoe to have the gin burned.

## Long Hits Graft by His Oponents

Kingfish Reveals Mysterious Political Loans in New Orleans

NEW ORLEANS. — (AP) — Mystery Friday cloaked Huey P. Long's threat to throw the entire New Orleans city administration out of office.

His legislative committee, investigating charges of "graft and corruption" in city officials, adjourned subject to call, and political circles were wondering if the Kingfish was planning to call the legislature into special session to address or impeach the officials out of office.

At a lengthy session Friday the committee heard testimony concerning large loans to Judge Nat Bond of Civil District Court, financial transactions of Sup. of Police George Rye, and Chief of Detectives John Groesch, and a charge that Gus Blacand defeated Walmley congressional candidate in Tuesday's primary, had sent a "spy" into Long's camp as a prospective witness for the legislative committee.

A witness identified as W. E. Wood, assistant state bank examiner, said judge Bond, who rendered several of the court decisions against Long in his political battle with Walmley, had borrowed \$14,000 from five New Orleans homeosteds since 1925. Wood testified, was attorney for one of the homeosteds. All except one of the loans, several of which Wood said were made on property of negligible value, were foreclosed.

State banking officials told of transactions of Superintendent Rye and Chief of Detectives Groesch. They testified that Rye, whose salary is about \$400 a month, now has a balance of \$31,911.54 in three homeosted organizations and that in one period of 35 days in 1931 he made deposits of \$1,593.

The witnesses testified that in 1930 and 1931 and 1932 Groesch had made regular monthly deposits exceeding his salary in banks and in the Police Credit Union, an organization for policemen.

## Bank Robbers Are Sought in Miller

Bank of Leary Held Up by 3 Men for \$728—Flee South of Texarkana

TEXARKANA. — Search entered in the Foulke area Friday night for three men who held up the Bank of Leary at 1:15 p. m., and took \$728.

What was believed to be the tracks of the getaway car, a new Ford V-8 with Arkansas license 12-072, were followed by O. T. Aldridge and F. D. Crook over a dirt cut-off road from Midway to Elyon on the Shreveport highway, where the car apparently turned east.

Later information was received, however, indicating the car had doubled back over another cut-off, passed south of Texarkana across South State Line road, and headed toward Fouke, Deputy Sheriff Brown at Fouke began an investigation of this angle.

The robbery was apparently planned for the noon hour, but Cashier W. McLendon suspicious of the frequent re-appearances of the strangers

(Continued on Page Three)

## Austrian Heir and His Mother

The Austro-Hungarian empire, which conceivably could be re-established by the ascension of Archduke Otto (upper left) to the Austrian throne, is shown as it existed in pre-war years, by the black border drawn over the present-day map of south central Europe. The restoration of the monarchy is the unending dream of ex-Empress Zita (upper left).

## Senator Caraway Pushes School Aid

Urges President Roosevelt to Issue an Executive Order

WASHINGTON. — (AP) — Senator Caraway (Democrat) Arkansas asked President Roosevelt in a telegram Friday for an executive order releasing money appropriated at the last session of Congress for emergency aid to education so that funds could be allotted to Arkansas.

The telegram was sent following a conference with L. R. Alderman, director of the federal emergency education program, who was asked recently by W. E. Phipps, Arkansas education commissioner, to allot \$2,500,000 to the state.

Mrs. Caraway said she found Dr. Alderman "very sympathetic" and believed that he regarded the sum asked for as in line with the state's needs. Alderman explained, however, that the appropriation of \$18,000,000 for aid to schools could be released only by executive order.

In addition to the telegram to the president, Mrs. Caraway telegraphed his secretary, Marvin McIntyre, describing the request as "very vital" and asking him to see that it was brought to the personal attention of the president.

"Upon investigation I find that the school situation in Arkansas is such that about 127 school districts are without funds and have no way of opening their schools," the senator told the president.

"Anything you may do to make funds available and give schooling to the children of Arkansas will be appreciated."

## Wayne England Is Home From Tour

Aetna Life Agent Had Introduced Hope Melon to Wisconsin

Wayne England, who has just returned from a convention of the Aetna Life Insurance held in Wisconsin, was the chief speaker at the Kiwanis meeting Friday night at Hotel Barlow.

As a means of publicity for Hope, Mr. England shipped a 145-pound melon to the convention. The delegates from all parts of the nation were amazed at the melon's exceptional size.

The speaker gave an interesting account of his trip, which included the World's Fair.

The Rev. Guy G. Holt, pastor of First Christian church, was a guest of the club.

It was announced that there would be a meeting of the board of directors Monday night.

## Hapsburgs Moving Back Again, France and Italy Willing

Otto, Betrothed of Italy's Princesses, Is Likely Choice

BRITISH HANDS OFF Monarchy Looms as Stabilizing Force for Central Europe

By the Associated Press

European diplomacy wondered Saturday if the Archduke Otto would mount a restored throne in Austria.

Political observers were agitated by reports from Brussels that the former Empress Zita intends to re-establish her home in Austria and feared it meant a renewal of the monarchist movement.

Sentiment favoring restoration of the Austrian throne seemed to be growing in Italy, whose princess, Maria, is unfavorably reported engaged to marry Otto, son of the former Empress Zita.

Official quarters in Paris indicated that the restoration would be tolerated by the French, while the British were disinterested.

To Return to Austria

BRUSSELS. — (AP) — The Hapsburgs, at last, are going home. In Austria, sources close to the royal family, that once ruled Austria-Hungary, said Friday that former Empress Zita, widow of the late emperor Charles I who lost his throne in the upheaval that followed the World War, expects to be living in Austria by Christmas.

Preparations are under way at Stenackerzell castle here for the return of Zita and her eight children, including Archduke Otto, Hapsburg pretender to the thrones of Austria and Hungary.

Permission has been granted the family it was said to reside in Austria as ordinary citizens of the republic.

Friday night, Zita, her month's stay at Villa Piana, the Bobbio-Parmas estate at Viareggio, Italy, at an end, was hurrying back to Brussels, while Otto, too, was enroute to the castle here after his tour of Scandinavia.

At Viareggio, just before her departure, Zita received King Victor Emanuel and Queen Elena of Italy, and after their call the "unofficial" engagement of Otto to Princess Maria of Italy was made known.

If they go back to Austria, it was said here, Otto must promise expressly that he will not seek to secure the monarchy's restoration—unless the great powers of Europe consent. In exchange, part of the Hapsburgs' big estates confiscated after the fall of the dynasty, will be returned to them. An agreement to this effect was reached recently at conferences among the powers, it was said.

It was said here the at Littel Entente, bitterly opposed to the restoration of the Hapsburgs in Austria or Hungary, would not protest their return to Austria, but would hold the Vienna government responsible for events of the future.

## Rayon Stock Sale Will Be Enjoined

Securities Exchange Commission Takes Its First Court Action

NEW YORK. — (AP) — The Securities and Exchange Commission began its first court action Friday to put an end to an alleged gigantic stock fraud.

Following an investigation directed by Chairman Joseph P. Kennedy, and John J. Burns, general attorney, the commission moved to restrain a nationwide distributing organization, specializing in Rayon industries Corp. Class "A" stock, from further operations. It was alleged the scheme involved many millions of dollars which

## Your Health

By DR. MORRIS FISHBEIN

Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

Sick Whooping Cough Before Whoop Begins

The most contagious time in whooping cough is before the whoop.

Even before the peculiar wheezing type of coughing develops, the organisms which cause whooping cough are being spread about to those in contact with the infected person. These organisms get into the linings of the breathing tract.

Persons who are infected are seldom sufficiently sick to be isolated during the early stage of their infection. During this stage they cough and the droplets of sputum containing the germs infect other people.

If it were possible to isolate everyone who had been in contact with the patient having whooping cough for a long enough time to know whether the one exposed was going to get the disease, whooping cough might be brought under complete control.

One of the most debated subjects among specialists today is the value of different types of vaccines in preventing and treating whooping cough. Most doctors believe that giving the vaccine early in the infection will shorten its duration.

Most of them also believe that the vaccine does little, if any, good when they are given to those who are already whooping. The experiments that have been made in laboratories show some value to such vaccines for producing substances which oppose bacteria.

The Danish investigator, Madsen, was able to study an epidemic of whooping cough in the Faroe Islands. He found that the results of whooping cough were much more serious in those who did not get any vaccine than in those who did get vaccine, and also that in those who were injected with vaccine the disease was much milder and did not last as long.

Following injection of the vaccine, there are occasional cases in which there is a slight rise in temperature and sometimes a little swelling at the spot where the vaccine was injected. Beyond this there does not seem to be any reaction to these vaccines.

Most authorities advise, however, that they should not be injected into children under one month of age.

Whooping cough is generally regarded by people as a mild disease, whereas actually it can be one of the most menacing that attacks human beings.

From time to time all sorts of remedies have been suggested for use in controlling the condition. Actually, nothing that is rubbed on the skin, no vapor that can be inhaled, has been found to be of much value.

Belts have been developed which help to support the abdomen and chest of the child who is coughing. These seem to give a certain amount of relief.

As with other infectious diseases, the complications are far more serious in causing death than is the disease itself.

**Scanning New Books**  
\$10,000 Prize Novel Is First-Rate Book  
—"Dusk at the Grove" Is Fine Story of Real People

By BRUCE CATTON  
In a day when most young novelists seem to prize ultra objectivity and staccato, closely-clipped literary style above all other things, it is exceedingly refreshing to read a novel like Samuel Rogers' "Dusk at the Grove."

This novel was refreshing at any time, as far as that goes, for it is an uncommonly good one. It is, as a matter of fact, the Atlantic \$10,000 prize novel for 1934. But just now it seems especially welcome.

Mr. Rogers tells about an Episcopal clergyman's family which spends its summers in a cottage on the Rhode Island coast; and his book is simply the story of the three children in this family—two sons and a daughter—and how they grow up through childhood to manhood and womanhood.

They are what we call "nice people," talented people, living in a good environment, but somehow, as these youngsters grow up, they contrive to get all tangled up in the business of living and to miss the prizes they seemed certain to win.

And yet, though the book shows people making hash of their lives, it is not depressing or pessimistic. Perhaps it is because these people are so like ourselves, in the way they drift their wisdom just too late and drift with the tide just a little too far; perhaps it is because Mr. Rogers has that

## YOUR CHILDREN

By Olive Roberts Barton

Children Seek It in Movies and Books.

"Should school children go to the movies through the week?" a mother asks. "I had a dreadful time last year with Mary. She was the four o'clock show about every other day and she was terribly late for her supper. And always on Saturday, too."

If Miss Mary had been mine I'd have been after her with a policeman. I think. No child has any business to sit in school all day using up mental energy and then continue to use up emotional energy on pictures or anything else, except for an occasional splurge.

his does not concern movies as such, or their influence good or bad on the child's training. It is the physical effect we are regarding here, and the upsetting of habit and hygienic routine.

There is a time and a place for children to see pictures. It depends on their age, their bed time and their own susceptibility to excitement. But when a child sits in school all day, even the healthiest needs change of air and position and to stop using up nerve power, motional interest of motion pictures, it is true, does divert and rest the brain to a great extent, but what growing children need is the balance of physical activity after a session at lessons.

As it happens there is no reason why Mary should not stop in at a four o'clock movie once in a while. But when it becomes an obsession and a regular thing it is out of balance. If she has studying to do after supper there she is again concentrating on books. When are her muscles going to get a chance?

The same is true of the child who habitually comes home to his story books. Many a boy has some everlasting pirate or a Jesse James waiting for four o'clock to come along, e shuts himself up to read rather than go out roller skating or play ball.

There is no great difference from a physical point of view between the movie and the book. Both are emotional fillips instead of muscular and fresh air takes.

Too often the movie-mad child, or book-mad child, is escaping from real living. Perhaps they don't care much for things the way they are at home or have no desire to take any part in small home responsibilities. But whatever the reason, there is a limit to these diversions, a place where they cease to be "rest."

**GLORIFYING YOURSELF**  
By Alicia Hart

Any girl is apt to ask occasionally, "How will I look when I'm forty?" The only honest answer is, "That all depends on you."

Beauty, like most worth while things, needs a firm foundation. If, year by year, you build for the future, there's no reason why you can't be as lovely when you're forty as you were when you were twenty-five.

But that building needs to be more than merely excellent care of skin, hair and figure. There are important, of course. Skin must be nourished to keep it smooth and soft, hair must be brushed and groomed so it will retain its youthful shininess, and exercises must be done to keep the figure firm and shapely.

However, any smart woman should know that what she really is—deep down inside—is what counts, particularly after she's forty. A very young girl often can get by on physical beauty alone, but a mature woman needs a great deal more than that if she is to be popular and well loved by her friends and family. She needs charm, poise, graciousness and a lovely, understanding nature.

A good way to go about acquiring these admirable characteristics—and a girl should begin when she's young—is to cultivate tolerance. Don't jump thing splendid and noble, even in delectable.

Whatever the trick is, Mr. Rogers has pulled it. "Dusk at the Grove," as a result, is a fine and appealing novel about people who are real enough to walk out of the page and chat with you.

Published by Little, Brown and Co., it sells for \$2.50.

## The Light Bringer

at conclusions where others are concerned. Generally you know only half of the circumstances which prompts another's actions. If you know all, the chances are that you'd be filled with understanding rather than intolerance. Give people the benefit of the doubt and give it to them with none of that holier-than-thou attitude. They'll be happier, of course, and you will have gone a long way toward building that important foundation on which you'll be able to stand, smilingly, after you're forty.

Either was not put to any practical use until 1842 although discovered in the 16th century.

The expensive armored automobile of the Marion, Ind., police is locked in a strong garage when not in use.

Items on a hotel menu always have a kind of luxurious, complicated sound, even when, as it often happens as old and familiar friend is hiding behind Latin and French nomenclature.

Chicken Tetrastini, now—wouldn't you expect anything with such a high caste product

rounding title to be some very interesting product of a chef's kitchen, requiring endless supplies that are not to be found on ordinary days in the

BREAKFAST: Diced mixed fruits, cereal, cream, creamed codfish with egg, cornmeal-muffins, milk and coffee.

LUNCHEON: Stuffed eggplant, raisin bread, celery salad, French panache, milk and tea.

DINNER: Jellied tomato bouillien, chicken Tetrastini, buttered lima beans, salad of mixed greens with hard cooked egg dressing, peach parfait, macaroons, milk and coffee.

home kitchen? That is just what I thought when I ordered it—but lo, and behold, when it came, it was just a dear old friend.

Here's all you will need to try it on your own family.

One five pound stewing chicken, 1-2 package spaghetti, 4 cups chopped tomatoes, 1 pound mushrooms, 1 cup of cream, 1 pound American cheese, 3 tablespoons Worcestershire sauce, 3 teaspoons salt, 1 medium sized onion.

Cook spaghetti in boiling salted water with onion until tender, but not the least bit soft. The onion is peeled but not cut. Drain and blanch spaghetti. Canned tomatoes can be used when fresh ones are not in season. Rub them through a coarse sieve to remove the seeds but be sure to force all the pulp through. Add tomato to spaghetti and simmer until absorbed. Clean and parboil mushrooms and add to spaghetti. Cool, cover and place in a refrigerator until wanted.

Clean and disjoint chicken and cook in boiling salt water until tender. Cool. Remove from bones in neat pieces, not to ossify, being sure to discard the skin. Put this in a refrigerator until wanted. When ready to serve combine spaghetti mixture and chicken. Add Worcestershire sauce, 1 teaspoon salt, cream

and half the cheese which has been grated. Mix lightly and put into a buttered casserole or shallow baking dish. Sprinkle top with remaining cheese and heat in a moderate oven until hot through and cheese is light brown and bubbly on top. The shallow dish is used because the mixture will heat through quickly.

Of course this same concoction can be made of left-over chicken for the family's Monday luncheon, if you indulged in chicken for Sunday dinner. Always keep in mind the danger of over-cooking chicken when its reheated. Only cool kitch made-dish long enough to make it hot through. Otherwise the chicken becomes dry and cottony and quite tough from prolonged cooking.

## U. S. Cutters in Pursuit of Japs

Americans to Avenge Attack on Philippine Peace Officers

MANILA, P. I. — (AP) — Two United States revenue cutters were speeding through the China sea Saturday in hot pursuit of a Japanese fishing boat whose crew reportedly attacked and rebbed three Philippine peace officers on American soil.

The cutter Bannahaw was reported direct on the trail early but details of the chase were lacking because the cutter can't not be reached from here by radio. The Arayat was the other cutter in the pursuit. Both American vessels were equipped with deck guns.

The fleeing boat, Hayun Maru, a 50-footer, with a crew of 21, registered as from Takao, Formosa, presumably was heading either for home or in the direction of Borneo.

Japanese Consul General Kimura in Manila referred to the reported attack as "outrageous," but expressed belief the men in the fleeing ship were not his countrymen. He sent a message to Formosa in an attempt to check identity of the vessel. The Japanese official said he would co-operate with Philippine authorities.

The alleged attack occurred in Palawan province September 11. Palawan is the westernmost island of the Philippine archipelago, southwest of Manila.

Cook spaghetti in boiling salted water with onion until tender, but not the least bit soft. The onion is peeled but not cut. Drain and blanch spaghetti. Canned tomatoes can be used when fresh ones are not in season. Rub them through a coarse sieve to remove the seeds but be sure to force all the pulp through. Add tomato to spaghetti and simmer until absorbed. Clean and parboil mushrooms and add to spaghetti. Cool, cover and place in a refrigerator until wanted.

Clean and disjoint chicken and cook in boiling salt water until tender. Cool. Remove from bones in neat pieces, not to ossify, being sure to discard the skin. Put this in a refrigerator until wanted. When ready to serve combine spaghetti mixture and chicken. Add Worcestershire sauce, 1 teaspoon salt, cream

and half the cheese which has been grated. Mix lightly and put into a buttered casserole or shallow baking dish. Sprinkle top with remaining cheese and heat in a moderate oven until hot through and cheese is light brown and bubbly on top. The shallow dish is used because the mixture will heat through quickly.

Of course this same concoction can be made of left-over chicken for the family's Monday luncheon, if you indulged in chicken for Sunday dinner. Always keep in mind the danger of over-cooking chicken when its reheated. Only cool kitch made-dish long enough to make it hot through. Otherwise the chicken becomes dry and cottony and quite tough from prolonged cooking.

## Going Away to School!

MRS. SID HENRY

TELEPHONE 321

To A Skylark  
Hail to thee, blithe spirit  
Bird thou never wert,  
That from Heaven or near it,  
Patrest thy full heart  
In strains of unimagined art.  
All the earth and air  
With thy voice is loud,  
As when night is bare,  
From one lonely cloud  
The moon rains out her beams, and  
Heaven is overflowed,  
Like a port hidden  
In the light of thought,  
Singing hymns unbidden,  
Till the world is wrought  
To sympathy with hopes and fears  
It heeded not.  
Teach us, spirit or bird,  
What sweet thoughts are thine:  
Have never heard  
Fancies of love or wine  
That poured forth a flood of rapture  
So divine.  
Teach us half the gladness  
That our brains must know,  
Such harmonious madness  
From our lips would flow,  
The world should listen, then, as  
we are listening now. Selected.

Mrs. C. J. Weisenberger is spending the week with her daughter, Mrs. Irvin Huckabee and Mr. Huckabee in Texarkana.

Mrs. Jimmie O'Neal has returned from a month's visit with relatives in Chicago, Ill.

Mrs. Robert White and children of Burtell, Ark., have spent the past week on the Hecker farm south of the city.

George W. Robinson will leave Sunday for Austin, Texas, where he will enter the State University.

Charles E. Taylor, the Expressman, is spending his vacation seeing the Fair in Chicago.

Mrs. George Francis and Mrs. T.H. Thompson were Thursday visitors in Prescott.

The Woman's Missionary Society of the First Baptist church will observe their week of prayer for state missions.

## Harold Lloyd at Saenger Sunday

"The Cat's Paw" to Be Shown Here Through Tuesday

Harold Lloyd goes in for singing in his latest comedy, "The Cat's Paw," produced from the Saturday Evening Post novel by Clarence Buddington Kelland. Not in a big way, however.

but for singing nevertheless. His singing voice is recorded, along with a quartette of his Chinese friends, with whom he reeks solace and relaxation when the rigors of an American city get too trying for him. Lloyd in "The Cat's Paw," Showing Sunday, Monday and Tuesday at the Saenger, which portrays a young man who has spent virtually all his life in China by the side of his father, an American missionary, who has devoted his entire career to bringing happiness to the inhabitants of an interior village. When he comes to this country he seeks out the Chinese friends of his father's mission associates and through their wives, as well as his own native philosophy, overcomes situations that are good for row on row of laughs, as well as dramatic thrills in "The Cat's Paw."

Lloyd had the herculean task of learning to speak in Chinese dialects before starting "The Cat's Paw." A strikingly novel use is made of Chinese dialects in the picture in order to comply with the wishes of the Chinese government's representative in Hollywood. Lloyd speaks both the Mandarin and Cantonese dialects.

However, don't let this delude you into believing that you won't know what Lloyd is talking about in these scenes, for the pantomime gets across the meaning of everything Lloyd says in Chinese.

## RAYON STOCK

(Continued from Page One)

probably would be lost to investors. Federal Judge William Clark of New Jersey District Court, signed an order, returnable Monday, to show cause why a temporary injunction should not be issued restraining National Investment Transcript, Inc., Clement H. Congdon and Marshall Ward, trading under the name of Marshall Ward & Co., from fraudulent sale of securities in interstate commerce.

The Securities and Exchange Commission alleges that National Investment Transcript, Inc., and Congdon, its publisher, organized a force of skilled telephone salesmen and solicited and sold Class "A" stock of Rayon Industries Corp., listed on the New York Produce Exchange since July 17, 1933, at "arbitrary and unconscionable prices."

The bill of complaint asserts that the telephone bill of National Investment Transcript, Inc., was \$56,922 between May 11 and June 11, 1933.

The commission charges that the manipulation of the stock to a peak of \$9.75 a share at a time when the corporation is losing money, has closed some plants and is becoming increasingly insolvent. Originally, 1,000,000 shares of stock were sold between \$3 and \$6 a share.

John T. Gullahan, lawyer for the commission, charged that "the master mind of the whole enterprise was one Leonard Rollnick, who is the leading tipster sheet operator of the United States."

## SEA LAW BROKEN

(Continued from Page One)

other two also had died in the disaster.

Differences between George I. Alagna, first assistant radio chief on the Morro Castle, and his immediate superior, George W. Rogers, apparently had been settled. In testimony before the Inquiry Board, Rogers had declared his assistant was a "trouble-maker."

"At times Mr. Alagna may not have been tactful in dealing with members and officers of the ship's crew," a statement by Rogers said, "but I would say from my association with him that he was a perfect gentleman and his character, to my knowledge, was irreproachable."

## BANK ROBBERS

(Continued from Page One)

during the morning, closed the bank about 11:40 a. m. after putting the bulk of the bank's cash in the vault.

He returned about 1 p. m., withdrew a portion of the cash, and was otherwise preparing for his afternoon duties when the bandits' car stopped in front of the bank.

"There's that car again," he told Helen McPherson, assistant cashier. "Get in the vault."

He just managed to close the door behind her when two of the robbers entered. "Good morning," said one, approaching his cage. Before McPherson could answer, the man produced a pistol from his hip pocket and covered him. McPherson stepped on an alarm button beneath the counter, which was supposed to ring a bell in the Crook-Carb Store nearby. The alarm for some reason, failed to sound.

## STRIKERS DEMAND

(Continued from Page One)

instrumentality as can make contracts on which the country can rely."

"The textile code was the first one to be presented under NRA," he said. "I had been working on it a year or so March, 1932, long before President Roosevelt became president."

"After exhaustive studies it was determined that a 40-hour week would re-employ all the people normally attached to the textile industry. Tom McMahon set in on that arbitration and agreed to that result."

"But I would not condemn these men cavalierly. I know young Gorman. I doubt if there is a more conscientious patriot and sincere man in the country than he."

## Criticizes Thomas

"The trouble is that when you unleash the force of riot and rebellion you never know that you can control them. I know now how this strike was pulled in contravention of the solemn engagements of the federation. Men circulated around the delegates and told them that the government would feed the strikers. Norman Thomas appeared and urged the strike. He is a politico. Whatever there is of economic doctrine in the Socialist party, it is the political first and economic afterwards, and Norman Thomas—as much as I respect and admire him—had no business there. When a strike becomes political it has no place in the lexicon of the NRA."

"The cotton textile industry is the very last place in the country where a strike should be ordered. It was the first industry to come forward with a code. The code increased employment by 140,000, or nearly 33 1-3 per cent."

"According to our studies it increased hourly wages by 70 per cent. When I think of George Sloan my heart weeps. I knew what kind of opposition he went up against."

"He overcame it all and got those concessions for labor which were opposed by practically the whole industry. It is a pity that he now has to take the rap in the dissention between labor and management of the whole proposition."

## Cites Cost Increase

"What is it that labor now demands. A 30-hour week and a 25 per cent increase in the wages of labor. But adding processing tax to the increase in the price of cotton and the increase of labor wages under the NRA, the cost of cotton has been doubled."

"The increase in the price of raw cotton alone has been 100 per cent—and the farmer and the workingman are yet to be heard from. The price of overalls and cotton work gloves has increased 100 per cent."

"I have today proposed to the industrial advisory board—and I think with their complete agreement—that they recommend to their employees industrial organization of labor, not company unions but industrial unions—one for the steel industry, one for the cotton textile industry, and so forth."

"I think that this is now a matter of moments, and I hope that it will bring peace to the most distressed situation that was arisen under the recovery act."

## GERMANY RESUMES

(Continued from Page One)

objections growing out of the committee's disclosures that Secretaries Hull and Roper visited the committee Friday to discuss these protests. Argentina, England, Mexico and others have complained.

Senator Clark, Democrat, Missouri, brought out through correspondence that the company's agent in Germany was Del Fungo Giera, and drew from Maj. K. K. V. Casey, official of the du Pont Company, that Giera had the reputation of being a spy with an international reputation.

"Isn't he the one who worked for Germany with Boy-Ed and von Papen and then turned spy for the United States government during the World war to save his neck?" asked Clark.

"I think so," said Major Casey, who confirmed that Giera was known as a Swiss and formerly went under the name of Peter Breuer.

"Didn't he boast that he had been a spy for 13 governments in all?" Clark asked.

"I think so," said Major Casey, who said he had known Giera about 20 years.

Clark said that Giera was the spy who furnished the United States with plans of the submarine base at Heliopolis and also advised this government of the alleged German submarine base off the coast of Yucatan, Mexico.

## Gulf Executive Hope Visitor

A leader in the oil industry stopped in Hope last Monday, H. C. Meyer (right), General Manager of Gulf Refining Co., from Pittsburgh headquarters, conferred with H. G. Meador, manager of the New Orleans division.

## General Manager Sees Petroleum Code Collapse Unless All Provisions Are Enforced

H. C. Meyer, of Pittsburgh, Pa., general manager of Gulf Refining company, H. G. Meador, of New Orleans, district sales manager of the New Orleans division, C. J. Guzzo, of New Orleans, state manager of Tennessee, and J. B. Thomas, of New Orleans, state marketer for Arkansas division, were hosts to the local distributor, M. S. Bates, the district supervisor, H. H. Hunter of Little Rock, and W. A. Forbes last Monday at Barlow Hotel.

Also present at this meeting were O. H. Carlisle, of Houston, Texas, district sales manager of the Texas division, and Messrs. Franks and Markon of Houston, assistant district sales managers of the Texas division. Mr. Meyer, who is on a general inspection trip, stopped off here for a few hours.

"The crisis of the national recovery code as pertaining to our industry is at hand," Mr. Meyer said at the round table dinner at the Barlow Monday night. "Certain parts of our code have benefitted the industry, but the success of other parts depends on their enforcement. The code in its entirety is at stake unless it is wholly enforced. We are hopeful of accomplishing 100 per cent enforcement. Without this, there will be little benefit."

Because of his brief trip from Pittsburgh's general offices to the South, with stopovers in Louisville, Memphis, Little Rock, Hot Springs, Hope and Texarkana, Mr. Meyer did not feel in a position to speak authoritatively on business conditions, but he came here for his visit already elated over Gulf sales here and in the remainder of the New Orleans division.

"I believe this section offers a splendid field for all merchandising enterprises," he said. "We are especially pleased with our business in this district. My company has a large investment in this territory and during the few years since Gulf first entered this section it has made rapid development."

The long endless chain of trucking networks over the country, traversing the highways day and night with their cargoes, have done more to increase gasoline consumption during the first six months of this year than any other factor, Mr. Meyer said.

"Here today, many miles away tomorrow, always on the go, these trucks have taken a leading part in boosting gasoline sales so far this year over last year," he declared. "Of course, long distance pleasure riders have played a part. I also am sure that the people have more money to

spend on gasoline than they did a year ago."

Mr. Meyer together with the other members of the party, proceeded by automobile to Texarkana where they stopped overnight. They will continue on through Texas for an inspection of Gulf's properties and business conditions. The trip will last from two to three weeks.

Mr. Meyer knows the oil industry from "the wells up." He has helped bring in several wells and has worked in Oklahoma and Pennsylvania oil fields. He started with Gulf 15 years ago at Pittsburgh as assistant manager.

## Slayer Mailman Files Guilty Plea

Elmo Smith to Be Sentenced Later for Murder of T. E. Pearson

TEXARKANA.—Elmo Smith, 22, pleaded guilty Friday to the murder of T. E. (Doc) Pearson, 37, United States rural mail carrier, at Genoa, who was slain and robbed of \$50 as he neared the end of his daily route last June. Judge Dexter Bush delayed sentencing the prisoner.

Prosecuting Attorney Millard Alford said that he would make no recommendation regarding the sentence of the chair or life imprisonment for Smith who confessed to Sheriff R. W. Turquette that he fired three shots into Pearson's body and robbed him.

Trials of Mrs. Lida Crow, 30, and Paul Favors, 26, both of Genoa who are co-defendants in the slaying, have been set for next Thursday. Alford said he would try Favors first as a vengeance has been asked by attorneys for the defendants.

Luke Monroe, attorney for Mrs. Crow, indicated in Friday that he would seek a change of venue for his client. It is reported that a petition is being circulated carrying signatures of persons who say they believe the woman, who is the mother of two small children, could not receive a fair trial in Miller county.

It was she, according to Smith's detailed confession, that made the mask for his face used when he stopped Pearson at gunpoint. She and Favors, the confession says, got Smith intoxicated on wine and then told him he "didn't have the nerve to pull the job."

Favors is asserted to have furnished

ed the .38 caliber pistol from which the three shots were fired that snuffed out the life of the carrier who had delivered mail in the Genoa section for the past 18 years and was soon to have retired with a government pension. He was the father of seven children and left a widow.

**NOTICE OF BOND SALE**

Notice is hereby given that School District No. 20-B, Hempstead County, Arkansas, will offer for sale at public outcry at the east entrance to the City Hall in the City of Hope, in Hempstead County, Arkansas, at 10:00 o'clock A. M., on Monday, the 8th day of October, 1934, bonds of said district in the sum of \$6,000.00, said bonds to be serial, maturing 1-10 years and bearing interest from date until paid at the rate of six (6) per cent per annum, interest payable annually. Said bonds will not be sold for less than par for 6 per cent bonds and will be sold for the purpose of providing the necessary funds for the construction and equipment of an additional building to be used in connection with the present main school building in said District, and for the repair of other buildings and school houses in said District.

Scaled bids may be submitted, and such bids will be opened and announced and considered as bids at said sale.

Said bonds will be sold to the highest and best bidder, and the District reserves the right to reject any and all bids.

Given under our hands on this 15th day of September, 1934.
